

Wordless Picture Books

THE PROJECT

What is this grant?

I was able to apply for this grant to support multilingual students in the classroom with literacy skills. I thought that having a set of wordless picture books would support so many of our students. I then decided that having the supplies to teach lessons with these books would also be amazing for our school! I applied and got the grant.

What does this mean for the school?

There were many ways that we could use these books at our school. I have been using them through my small group time, in lessons, and helping students apply literacy skills. These would be great to use during lead days as well.

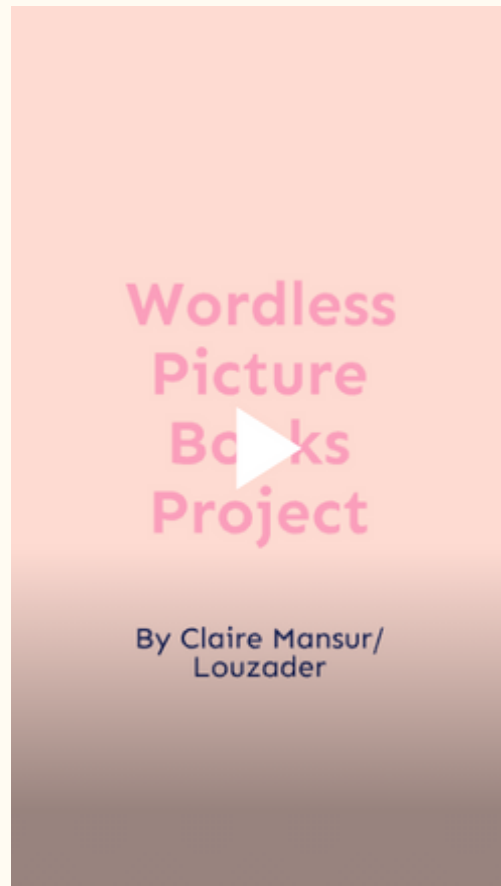

How do we use these?

THE PROCESS

1. Check out a book or a couple books using the binders in the book baskets, located in Ms.Louzader's (Ms.Mansur's) room.
2. Check out the supplies you want to use as well.
3. Use them with your kids!
4. Return the supplies not used and the books when you are done.

Check out Wordless Picture Books:

Need Ideas?

I GOT YOU COVERED

There are two books, one in each basket that have lessons and ideas for most of the wordless picture books. Also, check out the binder for more ideas and lessons.

Once you have taught a lesson you can add it to the binder to share!

The Benefit to WPB?

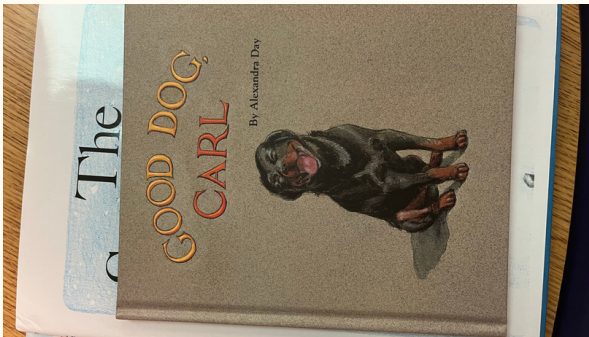

HOW DO THEY BENEFIT KIDS?

As we are teaching ELLs and Multilingual students, there are many times get stumped on "reading" the words of a book. I have seen my students excited to use these books who are emergent readers and writers as well as still learning English because they are easily accessible for the students.
